

HP Notebook Stands

Whether you want to elevate your notebook or dock it and use an external display (or two), keyboard, and mouse, HP has a stand for that.

Quickly and easily customize and maximize your workspace with an HP Notebook Stand. Combine your choice of stand with a notebook, docking station, display, keyboard, and mouse (compatibility varies by stand) for a complete, comfortable solution.

HP Adjustable Dual Display Stand

Maximize your productivity with dual displays mounted above your notebook. Adjustable user comfort features include customizable depth, height, tilt, and angle so you can find your most comfortable viewing position.

HP Display and Notebook Stand

Use the innovative, adjustable shelf to mount your notebook or notebook and docking station. The depth-, height-, and tilt-adjustable dual-hinged, smooth-motion display stand lets you use a separate standalone monitor alongside your notebook for dual-display efficiency.

HP Dual Hinge Notebook Stand

Position a notebook or notebook and docking station at your most comfortable viewing angle, and use the integrated base rollers to rotate the stand and share your work.

HP Adjustable Display Stand

Park your notebook and enjoy the enhanced viewing of a larger display. The dual-hinged, smooth-motion stand helps you find your most comfortable depth, height, and tilt position. The adaptable design accommodates notebooks with or without a docking station.

HP LCD Monitor Stand

Dock and charge your notebook PC and enjoy a large-screen external display. Connect your notebook to an HP Docking Station, HP Advanced Docking Station, or HP Ultralight Docking Station in the lower tray, which slides in and out for easy access, connect to the display, and you're ready to work.

All HP Notebook Stands are covered by a worldwide limited one-year warranty. For more information, visit www.hp.com/notebook/accessories.
