

# HP Multi-Tablet Charging Module

We keep you powered day after day.

Say goodbye to stacks of tablets and a sea of power cords. Quickly and easily charge, store, and secure up to ten tablet PCs inside a compact module so they're ready when you need them. Designed to accommodate the HP ElitePad (with or without the HP Expansion Jacket), the HP Envy X2 (with or without the keyboard), and any tablet device up to 11.6 diagonal inches, the HP Multi-Tablet Charging Module keeps your workspace tidy and uses just one power outlet to charge all of your connected devices.

## Easy to use with a range of tablets

Simply insert each tablet into a storage bay, connect its AC adapter to the interior power strip located on the back of the module, and plug the module into an AC outlet. That's it! Once you're set up, the blue HP logo LED on the front of the module confirms module is powered. The adjustable dividers can be removed and repositioned to support storage of thicker tablet devices and devices with jackets and cases

## Secure

A keyed lock on the front doors keeps the tablets securely housed while charging, and when opened, the doors fold back for easy loading and unloading of tablets. An external locking mechanism secures the module to a counter or desk for additional safekeeping.

## Ideal for a range of settings

The module has a thermally efficient design with back venting and two interior fans to help circulate air around the tablets and keep the exterior cool to the touch, which makes it a great fit in a variety of settings.

- Use in classrooms to secure and charge student tablets overnight
- Keep tablets ready to deploy for field and mobile personnel
- Great for hospitality and retail environments when you need to move additional staff onto the floor with a tablet device for taking orders
- Perfect for doctors and nurses to charge up their devices between rounds

## Backed by HP

The HP Multi-Tablet Charging Module is covered by a worldwide limited three-year warranty. For more information, visit [www.hp.com/notebooks/accessories](http://www.hp.com/notebooks/accessories).
