

ERGOTRON®

The Sit-Stand Leader

Every body and every workspace is different. Since 1982, Ergotron has been listening to industry leaders and professionals along each step of the workflow. We've spent the last 20 years creating a very broad selection of sit-stand workstations tailored to suit any workstyle. Productivity, efficiency and performance are important to you, and that's important to us. Ergotron WorkFit®. It fits your life.

one size
does not
fit all

- 1 THE ENGINEER:** I chose a WorkFit-S and I love it! I needed a workstation for two large monitors with a keyboard tray that comfortably drops below the desk. I can even swing one screen out to share drawings with my coworkers.
- 2 THE HR MANAGER:** I needed a workstation that would fit in the corner of my desk so I can still have face-to-face conversations with employees in my office. The WorkFit-T is perfect!
- 3 THE CUSTOMER CARE REP:** I love the larger worksurface of the WorkFit-TL. It gives me plenty of room for my water bottle and reference materials, and it doesn't extend out into my narrow cube floor area.
- 4 THE DESIGNER:** I constantly have product samples and storyboards lying around. For me, the full size WorkFit-D desk is the best solution.

Ergotron manufactures the broadest selection of sit-stand products in the world.

Multiple models offer varying degrees of function, ergonomics and attachment. Here is just a sampling:

WorkFit-T-TL	WorkFit-S	WorkFit-A	WorkFit-LX
No tools or assembly required; sits directly on top of desk	Keyboard ergonomically drops below desk; clamps to front of desk	Swings out to free up desk space; attaches to back of desk with clamp or grommet	Broadest ergonomic range; modular arm and keyboard system
			
WorkFit-SR	WorkFit-C	WorkFit-D	LearnFit®
Preserves desk space; clamps to back of desk	Sit-stand cart with mobility	Generous worksurface; full-size sit-stand desk	Adjustable and mobile standing desk for students
			

"I chose a WorkFit-SR because I didn't want the equipment to intrude into my desk surface area. It clamps to the back of my desk and doesn't interfere with the front drawers."

"The WorkFit-TL sits right on the corner intersection of my desk, holds two monitors and matches the white color of my decor!"
